

SEA HUNT POINT OF PURCHASE

- 1) #1 Selling Salt Water Fishing Boat In The World
- 2) Huge Carolina Flair that runs past the driver and 3/4 down the Hull creating the driest ride in the Industry.
- 3) Extra wide chine to chine gives you more displacement, less rock and roll and more Stability.
- 4) Quick Planing Vortec Hulls allow smaller horsepower engines to drive larger boats without sacrificing performance and gaining fuel economy.
- 5) Sharp Bow Entry of 50-60 Degrees Dead Rise gives you the softest and driest ride in rough waters. It makes a huge difference.
- 6) Yamaha system matched and installed at factory for the most reliability and strongest warranty.
- 7) Sea Hunt Boat lay-outs are the best design for functionality and practicality in the industry and has been ahead of their time so much that the whole industry is trying to copy them.
- 8) Premium gel coat with UV inhibitors is used all the way through to the Fiberglass unlike many competitors who cut corners and back out the gel coat with white gel coat to save money.
- 9) Nida-Core honeycomb core decks and load bearing surfaces (stronger/lighter)
- 10) NMMA certified following the ABYC and ISO standards going above and beyond most other Manufacturers
- 11) 10 year hull warranty – company financially strong
- 12) “Nyloboard” high density reinforced thermoplastic w/nylon fibers (stronger/lighter)
- 13) High quality stainless steel hardware
- 14) Thru bolted with aluminum backing plates sandwiched into fiberglass (seats, T-Tops, hardware, leaning posts)
- 15) All Fiberglass engineered stringer system specific to each model
- 16) “Coosa” Composite transom with fiberglass overlay “Blue water Series” stiffest/strongest the industry has to offer
- 17) All fiberglass stringer system
- 18) All compartments filled with closed cell foam –flotation and sound deadening
- 19) Hull and deck are chemically and mechanically bonded to one solid piece
- 20) Excellent Fit and Finish
- 21) D-shaped T-Top rails are more attractive and much stronger with less flex and less weld failures than round tubing
- 22) All boats are factory rigged
- 23) All T-Tops are plated and outrigger ready
- 24) First to introduce many family fishing features such as cup holders, comfortable seating, and large enclosed heads from 19 foot and up on Center Console Fishing Boats
